

# Capturing Beneficiary Cost Savings

# Housekeeping Items

- Today's webinar is being recorded.
- If you think of a questions you can raise your hand or type it into the chat box. If I don't have time to answer all questions I will follow up and send out answers after the training.
- I will distribute slides and the recording of the presentation approximately 48 hours after we conclude.

# Overview

- ACL uses STARS to collect data related to the cost changes as result of enrollment in Part D prescription drug plans (PDPs) and Medicare Advantage plans with prescription drug coverage (MA-PDs) available through the Medicare Plan Finder (MPF).
- By collecting this data, SHIPs can demonstrate the impact of their work on behalf of beneficiaries in the following ways:
  - Data on the **number of beneficiaries** who received PDP/MA-PD enrollment assistance from RI SHIP;
  - Data on the **average cost change per beneficiary** who received PDP/MA-PD enrollment assistance from RI SHIP;
  - Data on the **reported total** of PDP/MA-PD cost change for RI.
  - Data to **report to Congress** on the importance of the SHIP program to help support funding.

# OHA's SHIP Performance Incentive

- **Effective April 1, 2021** –

- OHA is now requiring that all SHIP Counselors & Volunteers report Part D prescription drug plans (PDPs) and Medicare Advantage plans with prescription drug coverage (MA-PDs) beneficiary cost savings.
- OHA will award a \$1,000 bonus performance incentive to each region for the grant year: 4/1/2021 – 3/31/2022.

# Part D/MA-PD Enrollment Data Steps

# PII and PHI

Personally Identifiable Information (PII)	Protected Health Information (PHI)
<p>Information which can be used to <b>distinguish or trace an individual's identity</b>, such as their name, social security number, biometric records, etc. alone or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as a data and place of birth, mother's maiden name, etc."<sup>1</sup></p>	<p><b>Individually identifiable health information</b> that is explicitly linked to a particular individual, and health information which can allow individual identification.<sup>2</sup></p> <p>PHI includes many common identifiers (e.g., name, address, birth date, Social Security Number) when they can be associated with the health information listed above.</p>

# Tips for Handling Sensitive Data

- Use private spaces to ensure sensitive data is safeguarded
- Store all hard copies securely in locked filing cabinets or offices with a maintained filing system
- Password protect electronic formatted documents and equipment (phones, computers, USB drives)
- Do not leave files of documents with PII on desks, printers, personal computers, phones or other devices
- Send and forward only encrypted emails with PII
- Clear web browser history
- Disable auto-fill on web browser

# Q&A on PDP/MA-PD Cost Data

- 1) **Should I report when a SHIP helps enroll a client in a new PDP/MA-PD plan, but the client doesn't experience savings, or pays more for the new PDP/MA-PD plan?**
  - **Answer:** Yes, report the data. There are a number of reasons a beneficiary might select a higher cost plan. ACL collects cost change data on all PDP/MA-PD enrollments, including those that did not result in savings for the beneficiary.
  
- 2) **What should be reported if I provide a beneficiary with Part D savings by assisting the beneficiary in switching to another pharmacy, but the beneficiary does not change plans?**
  - **Answer:** Do not report any data in the Original or New PDP/MA-PD cost fields. ACL collects cost change data only on instances where the SHIP assisted the beneficiary in enrollment, and no enrollment took place in this instance.

# Q&A on PDP/MA-PD Cost Data(Cont.)

## 3) What should be reported if I provide a beneficiary with Extra Help/LIS application assistance?

- **Answer:** Do not report any data in the Original or New PDP/MA-PD cost fields because no PDP/MA-PD enrollment occurred. This assistance is tracked and reported as part of MIPPA Performance Measures.

## 4) What should I report if I help a beneficiary enroll in a plan but the beneficiary doesn't take any medication?

- **Answer:** Enter the annual premium cost only for the Current/Original plan and the new plan. For example, the WellCare value Script (PDP) monthly premium is \$18.70 a month x 12 months = \$224.40 annual cost.

## 5) Will we be able to pull a report showing the amount of money our SHIP Counselors saved beneficiaries during open enrollment?

- **Answer:** ACL is developing Enrollment Outcomes and Quality Assurance Reports that will be available this year.
